

CALL FOR PAPERS

Special Theme Issue of IEEE TNSRE

Motor skill learning and neuro-rehabilitation

This special issue will highlight novel neuro-rehabilitation strategies based on research on motor learning. It welcomes submission of papers on the analysis of neuro-rehabilitation using techniques from motor skill learning and modeling of human-robot interactions, and on related studies on motor control, cortical plasticity or learning of new motor skills.

(Papers due August 2011, Target Publication date March 2012)

Interested contributors should directly contact the Guest Editors:

Vittorio Sanguineti, Italian Institute of Technology and University of Genoa, Italy vittorio.sanguineti@unige.it; Etienne Burdet, Imperial College London London, UK, e.burdet@imperial.ac.uk; Herbert Heuer, Leibniz Research Centre Dortmund, Germany, heuer@ifado.de, Dejan Popović, University of Belgrade, Serbia dbp@etf.rs; or the Editor in Chief, Dr. Nitish Thakor, at editortnsre@gmail.com.
